Dehydrated Media

- All Dehydrated Media is governed by ISO 9001:2008 standards
- ISO 17025 standard available if required
- Australian standard Formulations
- U.S.P, B.P and E.P Formulations
- Australia's unique position as a BSE free environment makes sourcing and production of many of our ingredients Biosafe and thus very export friendly.
- Premium quality ingredients to ensure predictable performance

"The quality of the media compared favourably or better to the other commercial media available in Australia used by the laboratories I have been involved with. Any technical assistance was always handled extremely promptly reinforcing their promise to be a Reliable Media Manufacturer."

Jill Gebler, Microbiologist of 35 years.

Currently Employed with Swep Analytical Laboratories

Pre-prepared

- All Pre-prepared Media is governed by ISO 9001:2008 standards
- ISO 17025 standard available if required
- Available in Pre-prepared Agars and Broths
- Routine Media Available
- Speciality Media Available
- Contact Plates
- Gamma irradiated plates and diluents

Amyl Media's Plastics range is ever expanding. Contact us today to see if we can provide you with a better deal on your plastic needs.

Custom Formulations

- *As manufacturers we can and do manufacture to speciality formulations for clients globally.*
- *This can be anything from a small 'tweak' of a formulation to a total formulation.*
- *'Batch Lock' is also available for larger volumes*
If you have an individualised need, contact us today. We will endeavour to assist you with your speciality media needs.

"Delivery of goods was always swift when batch locking was used this meant I was able to access core product immediately as required.

Amyl have and will provide custom formulations when required, they are keen to help adjust standard products to ensure we get the most out of our media."

*Jill Gebler, Microbiologist of 35 years.
Currently Employed with Swep Analytical Laboratories*
